

I am strongly against the Federal Government weakening the consumer protection laws against telemarketers. The "Do Not Call Registry" has reduced 99% of the telemarketing calls from mortgage companies, organizations selling frozen foods, etc. These companies would repeatedly call every night from dinner thru the evening and caused major disruptions of my family routine. The phone would continually ring during dinner and helping kids with homework and became frustrating. LEAVE THE LAW AS IS SINCE THIS DISRUPTION OF MY LIFE HAS BEEN ELIMINATED.
